

Croydon Healthy Homes

Helping you heat your home and reduce your fuel bills

Croydon Healthy Homes is Croydon Council's free energy advice service aimed at Croydon residents in private sector housing on low incomes, and more vulnerable to the effects of living in a cold home (especially families with young children, older residents and residents with pre-existing medical conditions). To be eligible you must pay for your electricity directly to your energy supplier, either through a direct debit, on receipt of a bill, or through a key or card (prepayment) meter.

Our team of qualified energy assessors can offer the following:

- advice about gas and electricity tariffs and payment methods;
- checking you receive all the support you are entitled from your energy supplier. This could include Warm Homes Discount (a £150 discount on your electricity bill), and support through the Priority Services Register
- advice about any debt you owe to your energy supplier
- advice about discounts and support from your water company (such a 50% discount on your water bill)
- advice about Smart Meters

If you are struggling to afford to pay your bill or top up your card or key meter please contact your energy company to discuss your situation before contacting us.

If you own your home or if you rent it from a private sector landlord we can also offer:

- an assessment to see if your household and home meets the eligibility criteria for grant funding for larger energy efficiency measures, for example insulation and new heating systems. Information about current schemes available is on our energy advice page - www.croydon.gov.uk/energyadvice
- advice about using the heating controls in your home, and ensuring they are set appropriately for the needs of your household
- advice about damp and mould issues (if you rent your property please seek support from your landlord before contacting us)

If you rent your home from Croydon Council or a Housing Association, please speak to their housing team for advice about possible energy improvements, your heating controls and any damp and mould issues, and any other support you need in your home

Support through Croydon Healthy Homes is initially through a telephone consultation. Where appropriate and at our discretion we can offer follow up home visits and other face to face support.

For more information and to apply please visit:
